A CARD.

We have recently learned there has been, and
perhaps, is now circulating for signatures, a peti-
tion, complaining to the Post Office Depart-
ment, that we have failed to comply with the or-
der of that Department for daily mail service
between Columbus and Clinton. We take this
medium to inform the public interested, that all
necessary arrangements have been made for a
speedy compliance with the order. By the first
mail after its receipt, in the latter part of July,
we advised the Department it should be com-
plied with as soon as the necessary stock could be
procured. By the same mail we ordered the
coaches, and, shortly after, one of our partners
left for Tennessee to buy the necessary stock,
with which he is now on his return home. The
service was increased at our instance, through
the active exertions of our Agent at Washington.
Neither our friends nor our enemies need have
misgivings or entertain any hopes that the order
will not be complied with. We are informed in-
deed, that it is proposed by others if the contract is
transferred to them, that they will expedite the
mail several hours ahead of the present schedule
time. In reply to this, we say to petitioners and
the public, if the Department, during our con-
tract term, shall order any increase of speed, or
other improvement of service, we will at all times
be willing and able, manage the misrepresen-
tations and slanders circulated against us to com-
ply with our contract.

We are not ignorant of the fact that great
pains have been taken to impress the public on
the line from Columbus to Greensboro, with the
belief that it was through the recommendation
and influence of our senior partner, that the ser-
vice on the route was reduced from daily to
tri-weekly. We would take the present opportu-
nity to disabuse ourselves of the prejudices against
us on this account. The facts in relation to the
reduction are these: The contract was accepted to
C. V. Fortune in tri-weekly two horse coach
service, which bid we bought on the express
condition the Department would raise the service
to four horse coaches. We do not pretend to say
through whose, or under whose influence the ser-
vice was reduced, but we say most unequivocally
it was through no recommendation or procurement
of ours. On the contrary, it was upon the recom-
mendation and through the agency of our senior
partner, then at Washington, that the service was
raised from two to four horse coaches. We
have at no time opposed daily service upon the
route; but it has been re-established upon our
application. If those under whose censure we
have fallen on this account, will look around
them, they may find, forsooth, that those who
have done "the wrong first began to brawl," and
have laid the secret mischief that they have set
abroach "to our charge."

THE KEY WEST SOLAR EVAPORATED SALT:

For Pickling Beef, Pork, Fish, &c.; for salting
Butter: for Table use, and for other
culinary purposes.

THE undersigned has purchased the Key West
SALT WORKS, and he calls the attention
of the public to the fact, that under the man-
agement of the previous proprietors, the Salt here-
tofore made there has been considered by those who
have used it much superior to Turke Island for the
above purposes; and by improvements made within
the last year and now in progress, we feel warranted
in saying that we now have on hand, and shall con-
tinue to manufacture and keep for sale, an article of
Salt better than is made in this country, or imported.

The English use the French "Bay Salt," (solar
evaporated.) The Dutch re-dissolve solar evapora-
ted Salt and further refine it before they use it. The
people of this country alone use any and every kind
that tastes salt! The Liverpool Salt is not used in
England but to make Chlorine for, finding it unfit
for salting provisions; and the same objection lay
against all boiled Salt; even the Turke Island
and other solar evaporated Salt that is imported here
contains all the lime that is in sea-water, amounting
to about twelve per centum of the solid matter, and
time instead of preserving meat decomposes it.

At Key West, as in France, we deposit out the
lime into reservoirs before crystallizing the Salt; and
we feel convinced that after using our Salt, not only
the Packer but the Planter and Farmer will use no
other when they can get it; the antiseptic power of
Key West Salt being certainly twelve per centum
greater than Turke Island, even if the lime in the
last named does not figure it, which it unquestionably
does. All other Salt imported into this country is
much inferior to 1 turke Island; and if any com-
parison can be drawn between our Salt and Liverpool
ours is at least fifty per centum better, weight for
weight; besides our Salt weighs 84 to 86 lbs. per
bushel, whereas Liverpool only weighs 80 to 82 lbs.

We keep on hand three kinds of Salt. First, the
finest kind of packing Salt. Second, a finer kind,
which is made in covered pans and is best for salting
fish, &c. Third, the best Ground Salt, put in
small bags, fitted for salting turkeys and for table use.

It will be remembered that Key West has a fine
safe harbor, and we pledge ourselves that vessels
calling for Salt shall have the greatest possible dis-
patch.
